

Follow CDC's Guidelines when visiting your Metroparks

WASH YOUR HANDS

Wash your hands often, carry hand sanitizer, avoid touching surfaces with bare hands such as railings, handles, or benches. Soap and water hand-washing stations have been placed at trailheads.

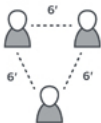

THINK FIRST

Do not use the park trails if you are exhibiting symptoms.

CLOSED RESTROOMS

Restrooms will be closed until further notice. This is an inconvenience to park visitors, but it is necessary during this critical time.

SOCIAL DISTANCING

Provide other park visitors with proper space of at least six feet at all times during your visit.

BE KIND TO ONE ANOTHER

Share trails with other visitors and warn other trail users of your presence as you pass, while keeping a safe distance.
