Whitehouse Fire	4	
<b>Totals</b>	<b>33</b>	<b>18</b>

## Toledo-Lucas County Health Department Media Advisory

The Toledo-Lucas County Health Department (TLCHD) continues to work with the Ohio Department of Health, under guidance from the Centers for Disease Control, to ensure the health and safety of both residents and staff, in long-term facilities across Lucas County. These facilities remain a concern locally and across the country, as we respond to the COVID-19 pandemic. Please find below measures TLCHD has taken to protect one of the most vulnerable populations in our community:

- For a number of weeks, TLCHD has provided resources to long-term care facilities in Lucas County. These guidance documents include: cleaning protocols, isolation and quarantine guidance, resident safety including changes to daily meal locations, including the elimination of visitation and congregate activities. In addition, employer guidance has been provided to include: wellness checks at the beginning of each shift, laundered uniforms, access to and ensuring proper use of PPE.
- The Ohio Department of Health actively collaborates with long-term care facilities in need of additional care, training, or intervention.
- Positive and probable cases of COVID-19, both employees and residents, are to be reported to TLCHD from long-term care facilities.
- Positive and Probable cases are notified by the Health Department and the contact tracing process will begin for each case.
- If a single facility has been determined to have an outbreak, TLCHD will provide additional guidance and oversight.
- In addition, once a facility has been determined to have an outbreak, the TLCHD assigns an epidemiologist to work specifically with the facility. The assigned epidemiologist will provide further individual guidance on cases and support the facility.
- A newly created protocol with local hospital partners, will start to provide testing for residents at long-term care facilities in Lucas County. TLCHD will coordinate the testing between the long-term care facility and respective hospital system. The hospital systems participating include: ProMedica, Mercy, St. Lukes, and UPMC.
- TLCHD continues to follow guidelines established by the Ohio Department of Health on the public communication of long-term care facility case numbers across the state, on a weekly basis.
